

# Pool Heater Maintenance

## Why service your pool heater?

Like any other appliance, your pool heater requires routine maintenance to run safely and efficiently.

Outdoor equipment is subject to problems caused by mother nature, rodents/insects can cause obstructions, which can lead to damage, costly repairs and fires.

We recommend having your pool heater cleaned and serviced before starting it up each season.

## 7 ways WE save YOU money

- 1. Reduces the need for repairs**
  - Reduce the wear & tear that comes with normal use.
- 2. Helps you avoid major expenses**
  - Prevent the bigger issues. We check & test those parts, to ensure optimal use.
- 3. Extends the life of your heater**
  - It extends its lifespan. Regular maintenance equals longer life for your heater.
- 4. Helps pool heater stay energy efficient**
  - Keeping everything clean & serviced, allows it to run
- 5. Costs less than replacement**
  - What costs much more than a yearly checkup? Replacing an entire pool heater.
- 6. Pays for itself by keeping costs low**
  - Saves you thousands in heating bills. It's a little investment that gives back.
- 7. Ensures that your pool STAYS heated**
  - The secret to heating a pool efficiently is simple: keep the pool at a constant temperature. Its much cheaper that completely reheating your water each time.
